

# ALTITUDE SCHOLARSHIPS

## DEAR FRIENDS OF ALTITUDE

It's been another year of significant growth for us, culminating in the exciting launch of our national brand on 11 November in Noosa!

While around 90 sponsors and special guests were entertained by the hilarious MC, Sam Coward, the stars of the show at the Altitude Scholarships launch were our exemplary recipients, of Marjorie Stockton from Sunshine Beach State High School (SBSHS), Eva Timmermans from Caloundra State High School, and St Theresa Sunshine Beach's Zara, our fabulous vocal performer who is sponsored by Ikatan Spa's Katrina and Nicholas Thorpe.

In Noosa and Hello Sunshine's Deb Caruso and Carlie Wacker are proud sponsors of Eva and spoke passionately of why they have been such staunch supporters of our endeavours since we commenced.

SBSHS Principal Grant Williams also provided critical insights on the significant and tangible impact the scholarships continue to have on the recipients that extend well beyond monetary assistance.

We are extremely grateful for the ongoing generosity and encouragement from our sponsors and all who support us.

## SCHOLARSHIP STUDENT PROFILE

Jennifer Ladewig received one of our first scholarships at the inception of Noosa Chances 3 years ago. We have observed her progress with such admiration and wish her continuing success as she commences her final year of school next year.

Her school, family and the Altitude community are all so proud of Jennifer's can-do attitude as well as her achievements academically and in her sporting endeavours.

Jennifer is *not yet being sponsored* and we intend to find a match for her.

*"Hi, I'm Jennifer Ladewig  
I'm 16 years old and currently  
enrolled at Sunshine Beach State  
High school."*

Some of my big highlights this year are my achievements in sports. Last week I was named Senior Sports Captain for 2023. It became a big achievement for me to represent my school and to encourage more young students to lift the house spirits of our sports, to get students moving and enjoy the carnivals that will be held for them.

I have also represented this year for Queensland, to compete at the national level in Sydney, placing top for both 100m hurdles and 400m hurdles.

As I graduate school, I would like to continue training and represent Queensland for rugby 7s.

While juggling sports, I will enroll in university to study health, physical education, and biological science so I can focus on body health in sports.

I would love to work with younger and older athletes to avoid injury, recover from sports injuries faster and stay performing at their best.

Noosa Chances' scholarship has given me the opportunity to give me the best support with school supplies and be able to achieve the right pathway in future times. I would love to thank you for how far I have gone to be able to nearly finish the year off with a banger.

I cannot thank them more for what they have done to give me and other students a boost of confidence and encouragement to work hard and do our best.

To find out more about a scholarship, please click [here](#) to visit our website (currently Noosa Chances and soon to be rebranded)

It is an absolute delight to let you know there are too many students to name who excelled in their studies and extracurricular interests and have been nominated for leadership positions in 2023. We look forward to sharing with you more stories of these successes!

Thank you all so much for your tremendous support. We wish you and your families a very happy Christmas break.

OUR BEST WISHES,

The Altitude team
